

VALUE ADDED SERVICES

In-House Service Reimbursement

If your department performs any corrective or preventative maintenance work, SU will reimburse your department for labor and travel at \$35 per hour. The in-house claim form can be e-mailed to you.

Manufacturer Comparisons

With more than 20 years of experience on millions of repair incidents, SU has compiled an extensive database on equipment failures. At your request, we will share information with you when you are making a purchasing decision for new equipment.

Major Repair Notification

To keep costs down across campus, SU requires that we be notified of any single repair event estimated by your vendor to exceed \$5,000. Our engineering department has extensive sourcing capabilities and can often reduce large repairs by as much as 60 percent by working with your vendor and equipment manufacturers.

Reports

Specialty Underwriters will provide you with up-to-date inventory reports, as well as identify specific equipment that is having a high frequency of repairs.

Vendor Sourcing

If you would like to pursue other vendor choices, Specialty Underwriters can assist you with your search. As always, the choice of vendors is yours.

University of Pittsburgh Contracted Supplier

The Consolidated Equipment Maintenance Program provides your department a guaranteed **20-30 percent** discount on all maintenance contracts for office automation, computers, lab and other electronic equipment, and all medical or patient care related equipment.

We strongly encourage all departments to have their eligible existing maintenance contracts enrolled into the program. All dollars saved will remain in your budget to aid you in the administration of your department. Currently, this program saves the Pitt community close to \$300,000 per year.

The program enables you to keep your current service vendors, and can cover your equipment 24 hours a day, 7 days a week. In addition, you will be able to outsource the vendor payment process which will relieve your department's administrative burden.

Schools such as the University of Pennsylvania, Drexel University, Penn State, University of Wisconsin, University of Iowa, University of California - Los Angeles, Northwestern University and others have adopted or are in the process of attaching to this national master agreement.

HOW DO WE GET OUR ANALYSIS?

The program is easy to enroll in.

If your equipment is currently under a maintenance contract, send your current contracts and recent maintenance billing invoices to your Specialty Underwriters (SU) representative.

Below is a representative list of equipment that can be enrolled in the Consolidated Equipment Maintenance Program

COMMUNICATION EQUIPMENT

- o Audio/Visual Systems
- o Emergency Systems (911)
- o Overhead Paging/Intercom Systems
- o Radios/Pagers
- o Telephone Systems/Switches
- o Telephone, Voice Mail Systems
- o Video Conferencing Systems

DATA PROCESSING EQUIPMENT

- o Bridges
- o Controllers
- o Hubs
- o Laptops
- o Multiplexors
- o PCs & Peripherals
- o Printers
- o Routers
- o Scanners
- o Servers
- o Switches
- o Tape Drives

FACILITIES EQUIPMENT

- o Electronic Signs
- o Electronic Food Preparation Equipment
- o Electronic Housekeeping Equipment
- o Electronic Pool Equipment

GENERAL EQUIPMENT

- o Bar Code Readers
- o Environmental Control Computers
- o Industrial Scales
- o Transcribers

LABORATORY

- o Ambulance Medical Equipment
- o Blood Culture Units & Analyzers
- o Breatherizers
- o Cell Savers & Cell Washers
- o Centrifuges
- o Chemistry Analyzers
- o Chromatography Equipment
- o Co-Oximeters
- o Coagulation Analyzers
- o Densitometers
- o Diagnostic Equipment
- o DNA Analyzers & Synthesizers
- o Electrolyte Analyzers
- o Electron Microscopes
- o Electrophoresis Equipment
- o Gamma Counters
- o Hematology Analyzers
- o Immunoassay Analyzers
- o Microbiology Analyzers
- o Microscopes
- o Microtomes/Cryostats
- o Ria Systems
- o Scales/Balances
- o Spectrophotometers
- o Tissue Analyzers

MAIL EQUIPMENT

- o Inserters
- o Labelers
- o Machines (not system)
- o Openers
- o Scales
- o Stackers/Collators

OFFICE EQUIPMENT

- o Binders
- o Burstlers
- o CAD/CAM Systems
- o Calculators
- o Card Readers
- o Cash Registers
- o Check Signers
- o Coin Sorters & Packagers
- o Currency Counter
- o Dictation Equipment
- o Electric Rotary Files
- o Electronic Print or Press Equip.
- o Electronic Typewriters
- o Embossers
- o Facsimile Machines
- o Folders
- o ID Card Systems
- o Labelmakers
- o Laminators
- o Microfilm Reader/Printers
- o Microfilmers
- o Retail Scanners
- o Shredders
- o Timeclocks
- o Typewriters
- o Uninterrupted Power Supply/Transient Voltage Protection Systems

SECURITY/ALARM EQUIPMENT

- o Alarm Systems
- o Card Access Systems
- o CCTV Systems
- o Electronic Gates/Doors
- o Electronic Library Security Systems
- o Fire Protection Systems
- o Fire Alarms
- o Life Safety Systems
- o Metal Detectors
- o Outdoor Emergency Sirens
- o Police Alarms
- o Premise Alarms
- o Vaults, Safes, Chests & Lockers

CARDIOLOGY/STRESS TEST/ICU, CCU, EKG

- o Arrhythmia Computers
- o Cardiac Output Computers
- o Health Care/Cardiac Cath Systems
- o Intra Aortic Balloon Pumps
- o Medical Gas Systems
- o Monitoring Systems
- o Patient Data Management
- o Stress Test
- o Telemetry Systems

FUNCTION LABS/RESPIRATORY THERAPY

- o Blood Gas Analyzers
- o Co-Oximeters
- o Sleep Labs
- o Tomometers
- o Plethysmographs
- o Pulmonary Function Systems

SURGERY

- o Lasers
- o Microscopes
- o Phaco Emulsifiers
- o Physiological Monitoring Systems
- o Tables
